

**Amendments to the Specification:**

At page 8, lines 22 through 30, please delete the entire paragraph comprising the Brief Description of the Drawings and replace it with the following paragraph:

The illustration of Fig. 1 schematically shows the positioning of the language according to the invention in comparison with the prior art in terms of description richness and of easiness of automatic semantic analysis on the one hand, and in terms of technological independence on the other hand.

The illustration of Fig. 2 shows a generic example of technical architecture.

The illustration of Fig. 3 shows an example of a fragment of actual technical architecture which may be used to realize an HTML/JSP intranet application

The illustration of Fig. 4 is a diagram showing the functioning of an architectural code generator according to the invention.
